

1st Announcement

CCQM Workshop on Advances in Metrology in Chemistry and Biology

10 April 2019

(Preceded by Poster Session on Evening of 9 April 2019)

**Organized on the occasion of the 25th Meeting of the CCQM with a Metrologia Focus Issue on
'Advances in Metrology in Chemistry and Biology'**

Workshop Presentations and Posters:

Workshop Presentations will be selected from papers accepted for publication in the Metrologia Focus Issue on 'Advances in Metrology in Chemistry and Biology', or submitted abstracts of presentations for which authors undertake the commitment to submit a paper to Metrologia before 30 September 2019.

Call for abstracts for presentations and posters open on: 1 May 2018

Deadline for submitting presentation and poster abstracts: 1 October 2018

Open Call for Papers for consideration for publication in the Metrologia 'Focus on' Issue:

Call Open from: 15 January 2018 to 1 December 2018

Scope of Papers: Focus on Advances in Metrology in Chemistry and Biology

Papers should progress the state of the art of measurement science in Chemistry or Biology, including advances in reference measurement methods, certified reference materials and reference data, as well as papers that contribute to the solution of difficult measurement problems of national/international importance and/or improve the accuracy of measurements of important chemical or biological measurands.

Steering Committee:

Metrologia Focus Issue Guest Editor Dr R. Brown (Metrologia Board Member)

Focus Issue Steering Committee Members: Dr. W. E. May (VP CIPM and President CCQM) Dr L. Mackay (CCQM OAWG), Dr M. Sargent (CCQM IAWG), Dr J-S. Kim (CCQM GAWG), Dr M. Mariassy (CCQM EAWG), Dr W. Unger (CCQM SAWG), Dr H. Parkes (CCQM NAWG), Dr J. Morrow (CCQM CAWG), Dr S-R. Park (CCQM PAWG)
