

17th meeting of the Consultative Committee for Time and Frequency

14 and 15 September 2006

Draft agenda

1. Opening of the meeting: appointment of a rapporteur
2. Progress in frequency standards:
 - Operating primary frequency standards and new primary standards under development
 - Frequency standards in TAI
 - Report of the CCTF working group on primary frequency standards
 - Report of the CCL/CCTF Joint working group on the secondary representations of the second
 - Report on frequency standards for secondary representations of the second
 - Realisation of TT(BIPM)
3. Present status of TAI:
 - Report of the BIPM Time Section
 - Report of the CCTF working group on TAI
4. Future developments for UTC and TAI
 - Report of the study groups on TAI
 - GPS all-in-view
 - Time links optimization
 - Use of PPP for TAI links
5. Redefinition of UTC: present situation
6. Time and frequency transfer methods:
 - Report of the CCTF working group on TWSTFT
 - Calibration of GPS equipment at the BIPM
 - Report of the IGS Working Group on Clock Products
 - Report of the WG on GNSS time transfer standards
 - High precision time transfer
7. Space-time references and general relativity:
 - Report on the IERS Conventions Product Centre
8. Clocks in space
9. Future global navigation satellite systems
10. Key comparisons and the Mutual Recognition Arrangement in the time and frequency domain
 - Report of the CCTF working group on the MRA
 - Report on key comparison CCTF-K2001.UTC
11. The BIPM work programmes for the periods 2007-2008 and 2009-2012
12. Recommendations
13. Other business
