

## CCTF Working Group on GNSS Time Transfer

6 June, BIPM, 14h

Draft agenda (07/05/2017)

1. Welcome (P. Defraigne, G. Petit)
2. Calibration status:
  - a. Group1 Calibration: determination of the reference (G. Petit)
  - b. Group2 Calibration: status and evolution (Group 1 labs)
  - c. lessons learned (All)
3. Calibration guidelines :
  - a. Status and evolution (All)
  - b. Calibration for P1/P2 using different antenna phase centers (P. Defraigne)
4. Calibration results
  - a. Reports : content and format (All)
  - b. Archive (G. Petit)
  - c. CALEX evolution (P.Defraigne/G.Petit)
5. CGGTTS V2E : managing non-healthy satellites (All)
6. Use of "new" GNSS constellations for UTC
  - a. Status on data availability (P. Defraigne)
  - b. Status on calibration (All)
7. Recommendation « On the utilization and monitoring of redundant time transfer equipment in the timing laboratories contributing to UTC » (All)
8. AOB (All)
