

**Seventh meeting of representatives of laboratories contributing to TAI**

**12 (afternoon) and 13 September 2006, BIPM**

Dr Patrizia Tavella, Chair of the CCTF Working Group on TAI

***Agenda***

*Tuesday (14:00)*

1. Welcome
2. Proposal for updating the membership and terms of reference of the CCTF Working Group on TAI (Tavella)
3. TAI status report (Arias)

*Coffee break (15:30)*

4. Time links for TAI
  - Comparison between time transfer techniques and methods (Jiang)
  - Future plans to improve clock comparison for TAI (Petit)
  - Report of calibration of time links for TAI (Petit, Lewandowski)
  - Report of the CCTF WG on TWSTFT (Klepczynski)

*end of the first day (17:30)*

*Wednesday (9:00)*

- Report of the ad hoc Study Groups on
  - Use of GPS all-in-view method in TAI (Levine)
  - TAI time link optimization (Matsakis, Arias, Hosokawa)
  - Example of an existing pivot: the situation of PTB laboratory (Bauch)

*Coffee break (11:00)*

- Report from the CGGTTS (Sunday meeting) (Levine)
5. UTC
    - Uncertainties of  $[UTC-UTC(k)]$  (Lewandowski)
  6. Frequency standards
    - Common activities with the new CCTF Working Group on Primary Frequency Standards (Parker)
    - Use of PFS data in TAI (Petit)
    - Recommended radiations for secondary representations of the second (Riehle)

*lunch (13:00)*

7. Algorithms  
Announcement from the subWG on Algorithms (Palacio)
8. Proposals for improvement (Tavella)
  - BIPM needs from labs (Arias)
9. Report on the ITU-R SRG on the future of UTC (Beard)

*coffee break (15:30)*

10. Contribution Dr Koshelyaevsky "Pitfall of clock's intercomparison system"
11. Contribution Dr Hanado " Introduction of new generation system of Japan Standard Time"
12. Recommendations to be proposed to the CCTF

*end of the meeting (17:00)*

*meeting of the WG Chairs with CCTF Chairman (18:00)*
